

GOLF LESSONS

Bio

Growing up in the San Francisco Bay Area, I learned to play golf at the age of 10. Just a few years later I began working in the golf industry in 1989. I played golf on my high school team and then collegiately at California State University, Chico. Although I've tried some other career paths, my love for the game of golf has grounded me here at Torrey Pines as an instructor for the past six years.

Teaching Philosophy

Each individual has different goals and differing abilities. I like to fully understand these within each student. We can then assess the best approach for developing techniques that compliment each individual. Golf is most enjoyable when positive results are achieved. My objective is to help golfers at any level, fundamentally improve their swing; and their game.
